

Updated Protected Areas GIS Data for California

CPAD v. 1.8 Release Notice

July 2, 2012

Download data and get more information at www.CALands.org

An update to the California Protected Areas Database (CPAD) has just been published by GreenInfo Network (www.GreenInfo.org). CPAD is the only comprehensive, high-resolution, statewide GIS data showing all of California's protected areas, from the smallest urban parks to the largest national park and wilderness areas.

A total of 49,220,699 acres of protected open land are now inventoried in CPAD (just under half of California's total land area) – this total is made up of 54,228 separate holdings or parcels, that are grouped into just over 15,000 units (e.g., a specific named park or preserve), and are owned by 940 governmental agencies and non-profit and other organizations. CPAD only contains data about lands protected for open space purposes and owned in fee by agencies and organizations.

What's New

This version of CPAD continues to refine the database with better parcel alignment, removal of inferior legacy data, and addition of newly protected areas. CPAD 1.8 includes seven more agencies/organizations than CPAD 1.7, including a net increase of over 65,000 acres of protected areas. It has roughly 1,000 more Holdings than version 1.7.

What YOU Can Do to Improve CPAD

Review CPAD data and propose edits or additions using **MapCollaborator™**, an innovative web application that now includes automatic tracking and email notifications of comments received, available at **http://www.calands.org/review.php**

Subscribe to the CPAD Newsletter

Stay in touch with CPAD updates and related program information by subscribing to the periodic **CPAD Newsletter** at www.CALands.org (we don't sell or trade your email address, ever).

CPAD 1.8 Supporters:

The updates in CPAD 1.8 were supported in part by a contract from Calif. Department of Parks and Recreation, through support from the Resources Legacy Fund and by additional support from the USGS Gap Analysis Program. Thanks to these agencies for their help.

DOWNLOAD CONDITIONS: CPAD is freely available for **non-commercial uses** – see the **CPAD License Agreement** for details (agreement is on www.calands.org, along with a detailed manual on the data set). CPAD may not be used or repackaged in profit-making applications (web sites, data packages, etc.) without specific consent from GreenInfo Network, but may be freely used by public agencies, nonprofits, businesses and individuals for most other purposes.

USES OF CPAD: The protected areas data is suitable for general planning and analysis by government agencies, non-profits, private businesses, planning consultants and many other users, including individuals with access to GIS technology. The public web site **www.ParkInfo.org** allows any user with Internet access to find and view interactive maps of publicly accessible protected areas.

NOT OFFICIAL OWNERSHIP DATA: CPAD data is not a replacement for and does not override official land ownership data for any individual agency – users needing the most up to date, or official boundaries must contact relevant agencies for that information. CPAD data may not be fully up to date or accurate in relation to owning agency data and is provided "as-is" to users.

NATIONAL PROGRAM: CPAD is also an element in a national program to improve protected land inventories – learn more about the Protected Areas Database of the United States (PAD-US, of which CPAD is a part) at the US Geological Survey's Gap Analysis Program web site (http://gapanalysis.usgs.gov).

FUNDING AND FUTURE UPDATES: CPAD is updated as funding becomes available – there is currently no dedicated source of ongoing support for CPAD, so additions and corrections are limited to funding opportunities.

If your agency, organization or foundation would like to join with GreenInfo Network to ensure that CPAD is maintained into the future, please contact GreenInfo Network (email to: cpad@calands.org).
